# WAUDENA® *Advantage*

At Waudena®, we understand the importance of providing you with doors built to last. That's why we carefully select each and every component. Our doors are built with quality and lasting value to protect your home, so you can continue creating memories and spend time enjoying life.

## SURROUNDED BY QUALITY

We build entry door systems using carefully selected components and quality workmanship.

## BUILT FOR LONG-TERM PERFORMANCE

Our entry doors are built to perform in all climates.

## KEEP YOUR FAMILY SAFE

We build our doors with security at the forefront to ensure that what's most important to you is protected in your home.

## SELECTION FOR EVERY STYLE

Your front door is the first thing guests see when they enter your home. We create entrance systems that reflect your individual style.

# Table of Contents

Sometimes the smallest details leave the most lasting impressions.  
Let us help you create your dream entryway leaving no detail forgotten.  
Create an entry that accentuates your personal style.

## WESTGUARD 20-GAUGE STEEL DOORS

Our toughest door collection to date. The WestGuard Collection is constructed out of durable, 20-gauge, hot-dip galvanized steel and is ideal for commercial jobs.

page  
40

## HERITAGE WOOD DOORS

Our Fir wood doors offer lasting durability while presenting a distinctive style that adds character to your home, leaving a long-lasting impression.

page  
60

## CONTEMPORARY SIMULATED DIVIDED LITES

Create a statement with wide SDL bars. The Fir bars are 3.5" or 5.125" in width and create the dramatic look homeowners desire.

page  
62

## MODERN SIMULATED DIVIDED LITES

Add timeless beauty to your home's entrance with narrow SDL bars. Modern SDL doors are available with Clear Low-E or your choice of privacy and textured glass.

## MODERN NOSING

This new aluminum clad trim profile provides a clean, simple look to your exterior door while accommodating storm door application.

page  
147

## AUTO-ADJUSTING SILL

The Endura® Z-Articulating Cap Sill® automatically adjusts to maintain a seal against the elements.

# DISCOVER *your style*

Updating the exterior of your home is an exciting time. The result should make you fall in love with your home every time you pull in the driveway. But what if you don't know what your design style is? Let us help you find your style and determine a direction for the look of your home.

Visit our website to uncover your design style and create a cohesive look that reflects you.

## INDUSTRIAL

Industrial design often features a combination of wood and metal materials for the perfect mix of old and new. Exposed pipes and leather furniture in warm tones add to the overall aesthetic.

## TRADITIONAL

Traditional design begins with the structure of the space. Sophisticated lines, ornate detailing, and deeply cut bevels provide an understated ambiance that is uniquely traditional.

page  
11

## CRAFTSMAN

Craftsman style houses are most well-known for their low-pitched overhanging roofs and column-heavy front porches. When it comes to craftsman design style, it is all about the details.

page  
12

## MODERN

Clean lines, uncluttered spaces and open layouts are elements of this style. It's not uncommon for pops of color to be incorporated through doors and accent pieces.

page  
13

## RUSTIC

Rustic design highlights the beauty of natural materials like stone accent walls and rough-hewn beams. Tarnished metals, burlap and repurposed objects are perfect details in a rustic home.

page  
15

## CONTEMPORARY

Truly an ever-evolving style as it reflects the trends of today. Color blocking, geometric wall art and high ceilings are commonplace in contemporary design.

page  
16

## COASTAL

At the beach, life is simple and that is reflected in coastal style. Furnishing and décor are uncomplicated and uncluttered allowing homeowners to enjoy the natural beauty and light of their home.

page  
17

## MID-CENTURY MODERN

This design has stood the test of time due to its focus on comfort and practicality paired with thoughtful design. Bold patterns and clean lines help to create a timeless appeal.

# Industrial

## HOME STYLE

While industrial style takes root from renovated warehouses, factories and other industrial spaces, the basic design concepts can be utilized in many homes with just about any structural style. Industrial design often features a combination of wood and metal materials for the perfect mix of old and new.

OXFORD  
WHITE

LAKESHORE

HORIZON  
GRAY

OFF THE  
RECORD

FLANNEL  
GRAY

Color palettes are generally kept neutral and are naturally inspired by preexisting elements of the space like slate, red brick, and concrete.

Exposed pipes, light fixtures featuring Edison bulbs and leather furniture in warm tones all add to the overall aesthetic.

Craftsman style houses are most well-known for their low-pitched overhanging roofs and column-heavy front porches. When it comes to craftsman design style, it is all about the details. Featuring statement fireplaces, built-in bookcases and thick trim and molding, this style truly stands the test of time.

# Craftsman

## HOME STYLE

It's not uncommon for each room to have its own color palette and hues tend to lean towards earthy and natural. Craftsman style design provides a warm, inviting and character-rich feel.

# Modern

## HOME STYLE

Less is more when it comes to modern style. Clean lines, uncluttered spaces and open layouts are elements of this popular design style. It's all about emphasizing materials when it comes to modern design – think concrete, glass, wood and steel.

Neutral colors, whites, beiges and some shades of black, are popular choices for color palettes.

Though neutrals are preferred, it's not uncommon for pops of color to be incorporated through doors and accent pieces.

With modern home design you can achieve a bold look through simplicity and minimalism.

# Rustic HOME STYLE

Rustic style highlights the beauty of natural materials like stone fireplaces and rough-hewn beams. Tarnished metals, burlap and repurposed objects are perfect details in a rustic home. You don't have to live in a log cabin to enjoy rustic design, you simply need to pull in natural elements with a focus on wood and stone.

Bring the beauty of the great outdoors into your entryway with our Rustic Glass Collection.

On left, Martiel glass.  
On right, Mohave glass.

When creating a rustic look, it's common to mix and match the wood species of cabinets, doors, trim and floors, and bring in barn-inspired elements like sliding doors or wood beams.

# Traditional

## HOME STYLE

Traditional style is rooted in comfort and enduring beauty. Traditional design begins with the structure of the space. Sophisticated lines, ornate detailing, and deeply cut bevels provide an understated ambiance that is uniquely traditional. This design style brings a sense of distinction to a home.

HOMESPUN

OXFORD  
WHITE

CRUMB  
CAKE

DARK  
WALNUT  
STAIN

ESPRESSO  
STAIN

Color palettes tend to lean towards soft neutrals and are most often paired with rich woods.

It's common to see patterned rugs, tufted upholsteries, and leather accents woven into the décor of traditional homes.

Contemporary design is truly an ever-evolving style as it reflects the trends of today. Color blocking, geometric wall art and high ceilings are commonplace in contemporary design. Similar to modern design, you'll find sleek, clean lines and notice decorative items are often omitted in favor of a more simplistic look.

# Contemporary

## HOME STYLE

Color palettes tend to lean more masculine and using shades of similar hues is common. Warmth and coziness are incorporated using textured rugs and patterned pillows.

Though ever-changing, contemporary design provides a sense of being rooted in simplicity.

# Coastal

## HOME STYLE

Inspired by rolling waves, sandy shorelines and cool breezes, it's no wonder coastal design is popular for beach-front properties and city dwellings alike.

A color palette of light, airy neutrals paired with ocean blues and greens help to keep a coastal vibe fluid from one room to the next.

At the beach, life is simple and that is reflected in coastal style. Furnishing and décor are uncomplicated and uncluttered, allowing homeowners to enjoy the natural beauty and light of their home.

# Mid-Century Modern

## HOME STYLE

The popularity of mid-century modern design has stood the test of time due to its focus on comfort and practicality paired with thoughtful design. Unlike many other styles, form follows function while highlighting the materials used, rather than making them something they aren't.

SOULFUL  
BLUE

FREE  
SPIRIT

WANDERLUST

PEACE  
N LOVE

HAPPY  
DAYS

Traditional mid-century color palettes ranged from bright hues in the 1950s to earthy colors in the 1960s, so either option works today.

Today's design style often showcases color with statement pieces rather than entire rooms.

Bold patterns, Danish-style furniture and statement lighting all lend to the overall look.

Mid-century modern design fits with today's more casual lifestyle, open floor plans and focus on experience over things.

# ADD STYLE + INTEREST TO YOUR HOME'S

# Curb Appeal

Whether you're remodeling or building new, creating curb appeal is important. It's the first impression others have of your home and is crucial should you ever decide to sell. Let us help you create a beautiful exterior!

**Not only will a new entry door increase your curb appeal, it can increase the value of your home too.**

Entry door replacement consistently ranks among the most valuable remodeling projects in Remodeling magazine's Cost vs. Value Report. According to the Remodeling 2020 Cost vs. Value Report ([www.costvsvalue.com](http://www.costvsvalue.com)), homeowners will recoup an average of 68.8% of their steel entry door costs.\*

\*©2020 Hanley Wood, LLC. Complete data from the Remodeling 2020 Cost vs. Value Report can be downloaded free at [www.costvsvalue.com](http://www.costvsvalue.com).

**Ready to boost your curb appeal and fall in love with your home all over again?**

Visit our website for the latest trends & design ideas to help you create your dream home exterior.

# Design Your Dream Entry

Designing your dream entryway has never been easier! Use our interactive door designer to bring your ideas to life in a few easy steps.

## STEP-BY-STEP

Making decisions is easier than ever with our step-by-step door designer. Explore different combinations of glass, color, door styles, hardware, and other details until you have one that's perfect for your home.

## SHARE YOUR DESIGN

After your design is complete, select a sample home to see it come to life. Print your design details to share with your contractor. Or, share your personalized design with family and friends on social media.

BEFORE

AFTER

# *Built with Security*

You can buy a new door just about anywhere.

A door is a door – from the street they tend to look the same for the most part...

## SO, WHY BUY OUR DOOR?

A door is 1-3/4" thick.

1-3/4" between you...  
and a severe storm  
and a hot summer day  
and subzero temperatures

1-3/4" thick between...  
your possessions and a burglar  
your home and a potential garage fire  
your family and harm

A door is much more than looks.

**IT'S SECURITY.**

**STEEL-EDGE**

**SPLIT WOOD EDGE**

## STEEL-EDGE ADVANTAGE Grade 40 Security Rating

Our steel-edge doors receive the highest rating possible in the industry's toughest forced entry test.

A door must withstand the force beyond 7 hits from a 100 pound test weight to achieve a Grade 40 rating.

## TRILENNIUM® MULTI-POINT LOCK

- Three full deadbolts mean:  
3X the strength  
3X the security  
3X the performance
- Only manufacturer with Multi-Point Locks on Grade 40 steel doors

## IMPROVED SECURITY

- Reinforced strike plate attaches behind the jamb for additional security against forced entry
- Standard on all doors with a deadbolt

## FIRE RATED DOORS

- All of our steel-edge doors have the ability to be labeled for 20 or 90 minute ratings
- Many fiberglass door options are available to be labeled for 20 minute rating

*Keep Your  
Family Safe*

# Surrounded by Quality

## DURA-FRAME™ JAMB

- Alaskan Yellow Cypress at the bottom of the jamb to resist rot and insects
- One-piece design, up to 12" depth, with no unsightly jamb extensions
- Limited lifetime warranty

## BALL-BEARING HINGES

- Reduces door squeak and eliminates grinding dust (black powder)
- Nine available finishes: Matte Black, Dull Chrome, Bright Chrome, Colonial Bronze, Satin Nickel, Antique Nickel, Antique Brass, Satin Brass, and Bright Brass

## CONTINUOUS SILL

Creates a stronger system and reduces opportunity for air and water infiltration on sidelite units.

## ONE PIECE MULLPOST

Adds strength and ensures your entrance system is storm door ready.

## T-NUTS

T-nuts are used on all wood jambs to prevent hinge screws from stripping.

# Built to Perform

## IN ALL CLIMATES

The components of our exterior door system are engineered to work together, creating a weather-tight seal. Both steel and fiberglass doors are fully insulated with an inner core of polyurethane foam, which provides superior thermal performance and greater energy efficiency.

You'll save on energy costs for years to come. Many of our products have been certified in meeting ENERGY STAR qualifications.

### ADJUSTABLE HINGE PLATE

- Allows the door to be adjusted up and down, in and out within the frame
- Adjustment allows for a tight fit against the weatherstrip and threshold
- Available in many door series and styles

### AUTO-ADJUSTING SILL

- Z-Articulating Cap Sill® delivers constant protection against leaks, drafts and insects
- Stands up to wind and water
- No rotting, warping or deterioration over time
- Champagne sill standard, with optional Bronze or Mill finish

**STEEL-EDGE  
DOORS**

Timbergrain doors have 4" of engineered lumber on both the hinge and latch edges to keep the door straight and tight against the weatherstripping.

Polyurethane foam core fills every void to protect from heat loss or gain – five times more efficient than a wood door.

Steel-edge ensures a door will not rot, bow or warp, even under extreme conditions.

# WESTGUARD

## SMOOTH STEEL DOOR SERIES

Tougher than ever and built for superior performance. The WestGuard Door Series is constructed out of durable, 20-gauge, hot-dipped galvanized steel and is ideal for commercial applications.

- 20-gauge steel
- Full steel-edge perimeter offers additional strength and the industry's highest security rating
- Resists cracking, splitting, warping, twisting, rotting, and corrosion
- Adjustable Hinge Plate System
- 20-gauge hinge reinforcements
- Polyurethane foam inner core provides superior insulation
- Composite lock block provides secure mounting for door hardware
- G40 Hot-Dipped Galvanized Steel – more resistant to rust than typical, electro-galvanized doors, even in high moisture or coastal environments.
- Fire rated up to 90 minutes
- Limited lifetime warranty

### CUSTOM CAPABILITIES

Customize your door with a special lock, face bore, or edge prep that a commercial job may require.

## AVAILABLE HINGE PREPS

## CLOSER AND PANIC BAR PREPS

## ADA SILLS

# CAMBRIDGE

## SMOOTH STEEL DOOR SERIES

Cambridge smooth steel doors are designed for strength, security and durability. This premium, insulated door system is constructed with a full steel-edge perimeter that offers additional strength and the industry's highest security rating.

- 22-gauge steel for increased durability; 40% thicker than bargain doors
- Full steel-edge perimeter offers additional strength and the industry's highest security rating
- Resists denting, cracking, splitting, warping and twisting
- Adjustable Hinge Plate System
- Polyurethane foam core fills every void to protect from heat loss or gain
- Composite lock block provides secure mounting for door hardware. Won't absorb moisture or swell like wood lock blocks.
- G40 Hot-Dipped Galvanized Steel – more resistant to rust than typical, electro-galvanized doors, even in high moisture or coastal environments.
- Fire rated up to 90 minutes
- Limited lifetime warranty

NOTE: Heritage series is available with glass options as shown above. Other glass styles noted within catalog are unavailable in this series.

# Choose Your Glass Style

Embrace the natural light and transform your entryway with handcrafted doorglass.

Our timeless designs create curb appeal, offer privacy, and personalize your home.

Each piece of handcrafted glass is unique, just like you.

Featured with MONTEREY glass  
see page 104 for application image

## ZEEL GLASS FRAMES

These clean, low-profile glass frames blend seamlessly into the entry door, allowing the doorglass to take center stage.

- Matches your door panel color
- Innovative clip system eliminates screws and caps
- Resists scalloping and warping in severe temperatures and direct sunlight, even when painted dark colors
- Resolve® sealant is immune to squeeze out and doesn't degrade over time

**NOTE:** Available on many styles in the Cambridge, Norwood, Trugrain™ and Valueline Steel, and Timberline Fiberglass door series. Ask your representative for details.

SIMULATED  
DIVIDED LITES

## design — YOUR HOME

+ configurations are designed to coordinate with popular window patterns

+ choose Simulated Divided Lites to create the look of authentic divided lites, but with greater energy efficiency

# INTERNAL GRILLES

Internal grilles feature bars between two panes of insulating glass. This style simplifies maintenance for homeowners, allowing the inner and outer glass surfaces to be easily cleaned.

Privacy Rating:  1 TRANSPARENT OPAQUE

with vented glass*

# VENTED GLASS

Vents let you enjoy warm breezes when open, while shutting out cold wind and rain when closed. The UV-resistant frame keeps its appearance and the removable screen makes cleaning easy. With ten adjustment locations for latches, you have options for placement of the vent latch on the frame.

# PRIVACY

*Collection*

Striking the right balance between privacy and security for your home's entry and a desired level of natural light can be tricky. Move the scale too far to one side, and you end up with a dark entryway, but move it too far to the other, and you end with too much visibility into your home. The Privacy glass collection offers a balance of the two. It filters glass for privacy without filtering light.

*creates a striking wave pattern  
when seen from afar*

# CHINCHILLA

As touchable as its namesake, Chinchilla's fine lines and organic, fur-like texture create a striking wave pattern when seen from afar. It offers a high level of privacy with the textured glass surface exposed to the inside of the home.

## CRAFTSMAN *Collection*

Simple designs inspired by nature are the hallmarks of the Craftsman style. These beautiful geometric designs cast intricate patterns of sunlight into the interior spaces of your home. Handcrafted glass honors the Craftsman reverence for fine material with coming options that blend beautifully with finishes inside and outside the home.

*design tip*

Create an individualized style by mixing textures and materials, including metal, brick and wood.

# MISTIFY

Mistify is the playful combination of pattern and texture. The black drizzle pattern is fused to softly textured glass, resulting in a mesmerizing statement piece for any modern entryway and privacy for the home.

# MODERN

*Collection*

Less is more when it comes to modern style. Clean lines, uncluttered spaces and open layouts are elements of this popular design style.

With our Modern glass collection you can achieve a bold look through simplicity and minimalism.

CROSSWALK

GLACIER

PRIVACY GLASS  
Details shown in  
Privacy collection  
on pg. 68-69

## design — YOUR HOME

- + crisp, geometric lines
- + neutral color scheme with pops of color for doors and accent pieces
- + floor-to-ceiling windows
- + use of natural materials, such as concrete, wood, and steel

# GLACIER

This multi-leveled textured glass was inspired by brick and stone finishes to deliver a bolder, edgier look to your entrance way. Glacier is a strong and modern imprint that will look great in the most natural of decors.

Glass Code: GLA

*Traditional &  
Quiet Elegance*

# SOLITUDE

Solitude appeals to your appreciation for both striking and subtle design. Geometric grids, beveled prisms, and a nickel finish give your entryway a traditional and quiet elegance. Solitude has a medium-low privacy level.

### DOOR PANEL DETAILS

- 22-gauge Cambridge Smooth Steel door
- Full steel-edge perimeter offers additional strength and the industry's highest security rating
- Resists denting, cracking, splitting, warping and twisting
- Adjustable Hinge Plate System
- Polyurethane foam core fills every void to protect from heat loss or gain
- Composite lock block provides secure mounting for door hardware. Won't absorb moisture or swell like wood lock blocks.
- Fire rated up to 90 minutes
- Limited lifetime warranty

# 4-FOOT WIDE DOORS

Wide openings allow for motorcycles, lawn mowers, small equipment and other large items to pass through without requiring an overhead or double door. The 4/0 wide by 6/8 high door features a WestGuard 20-gauge Smooth Steel panel with the Adjustable Hinge Plate System.

Available with Clear or Low-E glass

# Choose Your Frame Type

Protect your home with durable, low maintenance door frames that will provide you with years of rot-free and worry-free performance. Enhance your home's look with various trim profile options.

Choose from four frame options to complete your entry door.

## DURA-FRAME™ JAMB

- Primed wood jamb
- Alaskan Yellow Cypress finger jointed to the ends
- Resists moisture, rot and insects
- One-piece design, up to 12" depth

## DURA-TECH JAMB

- Durable PVC bonded to the Dura-Frame™ jamb
- Available on inswing units, with 4-9/16", 5-1/4" or 6-9/16" jamb depths
- Paint and stain options
- Includes matching brickmold that's splined for nail-free attachment

## STEEL FRAME

- Residential and light commercial applications
- Easy installation; accommodates varying wall thicknesses
- Can be installed after walls and flooring are finished
- 90-minute fire rating
- White frame is paintable after installation
- Optional steel casing

## CLAD FRAME

- Durable .092" thick extruded aluminum cladding
- Built on Dura-Frame™
- Powder-coated finish provides exceptional color retention

*Refer to the next page for trim and color options.*

# Select Your Hardware

Your front door is more than just a secured entrance, it's also a showpiece. Our handle selections and hardware finishes provide your home's style with just the right touch.

## TRILENNIUM® MULTI-POINT LOCKING SYSTEM

### RELIABLE SECURITY

Operating as one, all three bolts engage when the door is closed. One movement of the thumbturn or key activates all three deadbolts. When activated, each bolt becomes a deadbolt that cannot be compromised.

### PEACE OF MIND

Delivers the strength of one solid locking unit combined with the protection of three deadbolts.

### PANIC RELEASE

A single downward turn of the interior handle releases all three deadbolts.

### FORGIVING WHEN INSTALLED

You can't control the rough opening, or what happens over time. Trilennium can correct door misalignment up to 3/16", so it works when others don't.

# Discover Your Color

Color has the power to transform the look of your home. It can set the mood, create space and even boost the value of your home. Choose a color that stands out but still complements your home's color palette.

## A Pop of Color

Add major visual interest with an eye-catching front door. A splash of yellow or orange makes a bright statement. Alternatively, you can choose to go bold with a deep shade of red or purple.

## *Custom Color*

**CHOOSE A COLOR  
that is authentically you.**

Fall in love with your home again. You're an out-of-the-box kind of thinker and we want you to have the freedom to do so.

Sample size must be 2" x 2" minimum for an accurate color match. Work with your dealer or contractor to start the custom color process.

Custom colors are available for  
paint finishes and clad frames.

# Color Collections

Our color collections are all about expressing your personality and creating a home that is a true representation of those who live inside it. From bold and energetic, to neutral and serene, we have a color for everyone.

## Forever Home

A reflection of your inner world.  
Make it sacred and beautiful.

## Stately Retreat

Where luxury meets sophistication.  
Timeless and full of elegance.

## Treasured Legacy

Where memories are made  
and cherished for years to come.

## Retro Revival

Home is where stories of yesterday  
meet the dreams of tomorrow.

## Cozy Cottage

Home should be warm, relaxing,  
full of charm and character.

# Woodgrain Finishes

Woodgrain doors are the perfect solution for achieving the richness and beauty of wood without the maintenance. The richness of wood helps to create a stunning first impression and instant curb appeal.

Colors are available on wood textured door series:  
Norwood Steel, Timberline Fiberglass, and Timbergrain Fiberglass.

NOTE: Colors shown are as accurate as printing technologies allow. Swatches shown on Timbergrain Fiberglass in Cherry.

Home is an expression of who you are.  
Choose a *color* that is authentically you.

### MIX & MATCH

Complement both exterior and interior color palettes by choosing a different color for the exterior and interior side of your door.

### ELEVATE YOUR EXTERIOR

When choosing your front door color, find those that blend with or complement the fixed features, such as the walkway and stone/brick accents.

# Swing Options

A well-designed front entry door can provide curb appeal and add value to any home. Choose between an inswing or outswing, single door or double door, and whether you want sidelites or an overhead transom.
